DETAILED ACTION

Claim Rejections - 35 USC § 103

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 1-3 are rejected under 35 U.S.C. 102(b) as being anticipated by Ash, US Pub. 20020125964 for reasons of record.

Response to Arguments

Applicant's arguments filed 7/25/05 have been fully considered but they are not persuasive.

Regarding applicant comments directed to the rejection of claims 1-3 under 35 U.S.C. 102(b) as being anticipated by Ash, Applicant argues "Ash does not show, teach, or suggest a PLL feedback signal that is output from a buffer means forming a portion of the positive feedback loop". This argument is not persuasive because Figure 1 clearly shows a buffer means 110 forming a portion of the positive feedback loop. The path from 111 to 113 is for the portion of the positive feedback loop, and the path from 111 to 112 is for the PLL feedback signal.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within

TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
